

SEE THE LIGHT NORTHERN PASSIVE HOUSE CONFERENCE

THURSDAY 24TH SEPTEMBER 2015

CREST PASSIVE PAVILION, TECHNOLOGY AND SKILLS CENTRE,
KILLYHEVLIN INDUSTRIAL ESTATE, ENNISKILLEN, COUNTY FERMANAGH, BT74 4EJ

This is the Passive House Association of Ireland's (PHAI) annual conference organised in partnership with CREST at South West College. This year PHAI will run two "See the light" conferences, one at CREST in Enniskillen and one in Cork on Friday 13th November 2015. The CREST event will be held in the recently completed CREST Passive Pavilion - a Passive House designed building and an exemplar of sustainable construction.

The event is expected to be of interest to key policy makers, architects, builders, developers and building services companies. In addition to the main conference, there will be free "taster" sessions in the morning aimed at people who are new to Passive House but want to find out more.

CONFERENCE PROGRAMME

Time	Activity	
12.30pm	Local food buffet and registration	
Session 1: Passive developments
